

ETEFWORKIE MELAKU

Full-Stack & Mobile Application Developer

North York, ON | etefmelaku@gmail.com

etef738.github.io/portfolio | github.com/melakunet | linkedin.com/in/ademe-etefworkie-melaku-3b286b2b5

PROFILE

Full-stack and mobile developer who ships production apps: Rhythm Journal, a native iOS app live on the Apple App Store, and Hyremot, an AI resume and job-matching platform in beta on web, iOS, and Android. Experienced across React, TypeScript, Swift, Kotlin, and cloud databases, with a background in digital marketing and storytelling that keeps products user-focused. Seeking a junior developer role in software, web, or mobile development.

TECHNICAL SKILLS

Core Languages: JavaScript, TypeScript, Swift, Kotlin, Java, PHP, SQL, HTML5, CSS3

Frameworks & Libraries: React, Angular, Next.js, SwiftUI, Node.js, REST APIs, Capacitor

Databases & Cloud: PostgreSQL, Supabase, MySQL, CloudKit, SwiftData, Fly.io, Hostinger

Developer Tools: Git, GitHub, Xcode, Android Studio, VS Code, Postman

AI & Integration: Claude API workflows, Apple Intelligence, Apple Speech framework, AI API integration

Complementary Skills: Digital Marketing (SEO, Paid Ads, Analytics), UI/UX Design (Adobe XD), Video Production

SOFTWARE DEVELOPMENT PROJECTS

Rhythm Journal — iOS App

Live on the Apple App Store

Privacy-first journaling app · rhythmjournal.app

- Designed, built, and published a native iOS journal app using Swift, SwiftUI, SwiftData, and CloudKit (private iCloud sync).
- Integrated the Apple Speech framework for 100% on-device voice transcription with tap-any-word audio sync, plus optional Apple Intelligence summaries; the app collects no user data.

Tech: Swift, SwiftUI, SwiftData, CloudKit, Speech Framework, Apple Intelligence

Hyremot — AI Resume & Job-Matching Platform

Beta · Web, iOS & Android

- Engineered a cross-platform web and mobile platform from one codebase using React, TypeScript, Supabase, PostgreSQL, and Capacitor, deployed on Fly.io.
- Built AI-powered ATS resume evaluation, resume improvement, and job-fit scoring, with secure authentication and subscription billing.

Tech: React, TypeScript, Capacitor, Supabase, PostgreSQL, Fly.io, AI APIs

Snap & Shop — Mobile Capstone

Completed · iOS & Android

- Developed native iOS (Swift/SwiftUI) and Android (Kotlin) apps that identify products from the camera with AI and rank live prices from major retailers, with favorites and scan history.

Tech: Swift, SwiftUI, Kotlin, Xcode, Android Studio, AI Vision APIs, REST APIs

TimeForge — Web Capstone

Full-Stack Productivity App

- Built a full-stack React freelancer productivity suite with admin and client dashboards, live and offline time tracking, client chat, invoice generation, email delivery, and reporting.

Tech: React, REST APIs, Database Workflows

PROFESSIONAL EXPERIENCE

Independent Mobile & Web Developer

Self-Employed · Toronto, ON

- Design, build, and publish web and mobile apps (Rhythm Journal, Hyremot), owning planning, UI/UX, development, testing, security, and release.

Digital Marketing Director

2023 – Present

NovelNet Inc. · Toronto, ON

- Led data-driven marketing campaigns that increased total website traffic by 35% and improved organic search rankings by 25%.
- Grew social audiences by 40%, managing an online community of 80,000+ followers across Facebook, TikTok, Instagram, and Pinterest.
- Produced multi-channel video, ad, and written content using Premiere Pro, CapCut, Canva, and generative AI tools.

Earlier Career — Film, Advertising & Teaching

Addis Ababa, Ethiopia

2006 – 2012

- Director & Producer (Kehil Movie Company), Instructor in videography and scriptwriting (Rakhmanove College), and Advertising Scriptwriter (Anebesa Advertising PLC).
